

**Blocking:** quick marks to mark basic composition.

1. Choose Point Of Departure (P.O.D.) & crop (fold edges under if you use one of my photos.)
2. Place cropped P.O.D. flush with a corner of painting substrate. Draw diagonal from opposite P.O.D. corners; then extend to desired painting size & mask as needed.

watercolor setup

maximum size

half-sheet

3. Block out image lightly on substrate by dividing P.O.D. into grid (folding is easiest) and marking in equivalent areas of painting. Connect corners with x's to find centers.
